

NEEV BHAVSAR

Lead Full-Stack Developer & Technical Project Lead

Gandhinagar, Gujarat, India • +91 94091 79650 • bhavsarneev09@gmail.com • webvantaindia.com

PROFESSIONAL PROFILE

Full-Stack Developer and Technical Project Lead with experience in custom PHP/MySQL web applications, relational database design, WordPress and hosting deployment, and AI-assisted development. Manages live deployments for commercial and institutional clients as an MSME Digital Lead Engineer.

PROFESSIONAL EXPERIENCE

WEBVANTA INNOVATIONS

Oct 2025 – Present

Lead Full-Stack Developer & Technical Lead

- ▶ Lead backend architecture, relational data modeling, and performance tuning across all client projects using AI-assisted rapid prototyping.
- ▶ Idar Bhavsar Samaj Portal: Bilingual (English/Gujarati) community portal with member directory, event management, and media streaming.
- ▶ Kalptaru Ayurveda: Secure multi-clinic portal with confidential clinical data handling, branch routing maps for Surat, and search optimization.
- ▶ Xenesis 2026 Portal: Event registration system with developer tracking modules and discount coupons; stable, zero-downtime operation during the festival.
- ▶ Shopify storefront for Elegant Style; custom websites for Vishva Kalyan Society, Rotary Club, and Meghdhanush Trust.

ISHAPE TECHNOLOGIES

4 Months

Part-Time Web Developer | WordPress, Hosting & Deployment

- ▶ Developed and maintained the company website using custom WordPress coding; applied .htaccess caching rules to improve load times and Core Web Vitals.
- ▶ Migrated the website from the old host to Hostinger: deployment, hosting configuration, code re-upload, and troubleshooting display issues.
- ▶ Configured domain and DNS settings, and migrated and reconnected company email accounts to the new hosting environment.
- ▶ Resolved post-migration website, hosting, and email issues and restored all services to a working production state.

ADVANCED INDEPENDENT TECHNICAL PROJECTS

Z-Axis Atelier — Architecture & Interior Design CMS Portal

Lead Full-Stack Developer & System Architect

- ▶ Built a custom CMS and client operations portal with a public portfolio site, secured Admin Console, and Developer Workspace.
- ▶ Admin tools: no-code content editor, enquiry manager, Quotation Builder with digital signatures, and Invoice Generator with milestone payment tracking.
- ▶ Developer tools: role and permission management, SMTP configuration, access suspension, and audit logs; autosave engine syncing form drafts every 5 seconds.
- ▶ Database: 40+ normalized MySQL/MariaDB tables. Stack: PHP 7.4–8.2, PDO/MySQLi, Apache/Nginx.

AI Plagiarism Removal & Analysis Tool

Lead Backend & Model Integration Developer

- ▶ Full-stack app using Ollama LLM integration for text rewriting and plagiarism removal, with PDF upload, text extraction, scoring, and clean file download.

Custom E-Commerce Engine
Full-Stack Engineer — Custom Coded

- ▶ Framework-free e-commerce application with Razorpay payment integration, shipping calculation, and automatic itemized PDF invoices.

Enterprise Invoice & Management System
Database & Application Developer

- ▶ Internal invoicing utility with ledger tracking, customer data indexing, and transaction reconciliation.

Interactive Digital Piano Platform
Frontend Performance Engineer

- ▶ Browser-based piano with low-latency audio playback optimized for mobile and desktop.
